Algorithmic Trading Strategies with MATLAB Examples. The traditional paradigm of applying nonlinear machine learning techniques to algorithmic trading strategies typically suffers massive data snooping bias. On the other hand, linear techniques, inspired and constrained by in-depth domain knowledge, have proven to be valuable.

Algorithmic Trading Strategies with MATLAB Examples ...

I recently came across your webinar on Algorithmic Trading in 2009 and it is a great one. However for the " simple market making system based on a paper by Sanmay Das" part, I am wondering which paper you are refering to and it seems that this system is not about market making but a directional bet system.
