to be the father of the Turkish automotive industry, Claude was fascinated by cars and engineering from an early age. Claude's career led him into automotive design, research and engineering, before eventually heading and growing the Kiraça group trading company in Europe, all the while maintaining his link with the automotive world. As Claude's career progressed, he began collecting and racing cars, and the growth of his stable led to him establishing The N Collection. Wishing to create a distinctive tribute to his favourite cars, Claude commissioned six leading artists, and gave them free rein to depict each of 25 cars from his collection in their own inimitable style. The Automotive Art Project showcases that work.

'Every idiot who goes about with "Merry Christmas" on his lips, should be boiled with his own pudding'  
Dickens's story of solitary miser Ebenezer Scrooge, who is taught the true meaning of Christmas by a series of ghostly visitors, has had an enduring influence on the way we think about the season. Dickens's other Christmas writings collected here include 'The Story of the Goblins who Stole a Sexton'; 'The Haunted Man'; and shorter pieces, some drawn from the 'Christmas Stories' that Dickens wrote annually for his weekly journals. In all of them Dickens celebrates Christmas as a time of geniality, charity and remembrance. Edited with an introduction by

Exciting and magical.' Damon Hill 'Nick Fry and Ed Gorman take us behind the mysterious and tightly closed doors of F1 to tell the remarkable story of the 2009 season.' Martin Brundle Foreword by Bernie Ecclestone The full story of F1's incredible 2009 championship battle has never been told. Until now. In this gripping memoir, Nick Fry, the former CEO of Brawn GP, reveals how he found himself in the driving seat for one of the most incredible journeys in the history of motor sport. At the end of 2008, Nick, then head of Honda's F1 team, was told by his Japanese bosses that the motor company was pulling out of F1 in thirty days. This bolt from the blue was a disaster for the team's 700 staff, for Ross Brawn, who Nick had recently recruited as chief engineer, and for the drivers,

Jenson Button and Rubens Barrichello. But in a few short weeks, Nick and Ross would persuade Honda to sell them the company for £1 (plus all the liabilities). Just thirteen weeks later, the Brawn GP team, led by Nick and Ross, would emerge from these ashes, win the first Grand Prix of the 2009 season, and go on to win the Driver's and the Constructor's Championship, with a borrowed engine, a heavily adapted chassis and, at least initially, no sponsors. In *Survive. Drive. Win.*, Nick gives an up-close-and-personal account of how he and Ross turned disaster into championship glory and laid the foundations for what was to become the Mercedes-AMG Petronas F1 team. Along the way he gives the inside track on the drivers, the rivalries between teams, on negotiating with Bernie Ecclestone, on

Graham Hill (1929-1975) is the only driver to have won motor racing's triple crown - the World Championship, the Indianapolis 500 and the Le Mans 24-Hour race. This title follows Hill from his childhood, through his humble beginnings as an unpaid mechanic, to the heights of World Championship fame in 1962, ending with his Indianapolis win in 1966.
