answer is that although the sickle-cell allele can cripple your red blood cells, it can also protect you against malaria. Having one copy of HbS (the sickle-cell allele) protects you from becoming sick from malaria. Heterozygous (HbS/HbA) red blood cells that

# Read PDF Sickle Cell Alleles Simbio Answers

become infected with the malaria protozoa will sickle. The body's immune system recognizes that something is wrong with the sickled cells and disposes of them.
