Edward VI: The Last Boy King by Stephen Alford

Buy The Boy King: Edward VI and the Protestant Reformation First Edition by MacCulloch, Diarmaid (ISBN: 9780312238308) from Amazon's Book Store. Everyday low prices and free delivery on eligible orders.

"This is Reformation history as it should be written, not least because it resembles its subject matter: learned, argumentative, and, even when mistaken, never dull."--Eamon Duffy, author of *The Stripping of the Altars: Traditional Religion in England, 1400-1580*

Edward VI, the only son of Henry VIII, became king at the age of nine and died wholly unexpectedly at the age of fifteen. All around him loomed powerful men who hoped to use the child to further their own ends, but who were also playing a long game - assuming that Edward would long outlive them and become as commanding a figure as his father had been. Stephen Alford's wonderful book gives full play to the murky, sinister nature of Edward's reign, but is also a poignant account of a boy learning to rule, learning to enjoy his growing power and to come out of the shadows of the great aristocrats around him. England's last child monarch, Edward would have led his country in a quite different direction to the catastrophic one caused by his death.

On the death of Henry VIII, the crown passed to his nine-year-old son, Edward. However, real power

went to the Protector, Edward's uncle, the Duke of Somerset. The court had been a hotbed of intrigue since the last days of Henry VIII. Without an adult monarch, the stakes were even higher. The first challenger was the duke's own brother: he seduced Henry VIII's former queen, Katherine Parr; having married her, he pursued Princess Elizabeth and later was accused of trying to kidnap the boy king at gunpoint. He was beheaded. Somerset ultimately met the same fate, after a coup d'etat organized by the Duke of Warwick. Chris Skidmore reveals how the countrywide rebellions of 1549 were orchestrated by the plotters at court and were all connected to the (literally) burning issue of religion: Henry VIII had left England in religious limbo. Court intrigue, deceit and treason very nearly plunged the country into civil war. Edward was a precocious child, as his letters in French and Latin demonstrate. He kept a secret diary, written partly in Greek, which few of his courtiers could read. In 1551, at the age of 14, he took part in his first jousting tournament, an essential demonstration of physical prowess in a very physical age. Within a year it is his signature we find at the bottom of the Council minutes, yet in early 1553 he contracted a chest infection and later died, rumours circulating that he might have been poisoned. Mary, Edward's eldest sister, and devoted Catholic, was proclaimed Queen. This is more than just a story of bloodthirsty power struggles, but how the Church moved so far along Protestant lines that Mary would be unable to turn the clock back. It is also the story of a boy born to absolute power, whose own writings and letters offer a compelling picture of a life full of promise, but tragically cut short.

Throughout Edward's short reign the young ruler kept a journal, a detailed diary recounting events in his kingdom. It is a fascinating record of Tudor England through the eyes of its monarch. The diary narrates all the momentous events in the young king's life but also observes the wider world, noting down news from England and keeping a watchful eye on Ireland, Scotland and mainland Europe.

One of Open Letters Review's Ten Best Historical Novels of 2020 "Highly recommend both as a standalone and series read. Wertman's work is among the best Tudor fiction on the market" - Historical Fiction Reader Motherless since birth and newly bereft of his father, King Henry VIII, nine-year-old Edward Tudor ascends to the throne of England and quickly learns that he cannot trust anyone, even himself. Edward is at first relieved that his uncle, the new Duke of Somerset, will act on his behalf as Lord Protector, but this consolation evaporates as jealousy spreads through the court. Challengers arise on all sides to wrest control of the child king, and through him, England. While Edward can bring frustratingly little direction to the Council's policies, he refuses to abandon his one firm conviction: that Catholicism has no place in England. When Edward falls ill, this steadfast belief threatens England's best hope for a smooth succession: the transfer of the throne to Edward's very Catholic half-sister, Mary Tudor, whose heart's desire is to return the realm to the way it worshipped in her mother's day.

Edward VI, the only son of Henry VIII, became king at the age of nine and died wholly unexpectedly at the age of fifteen. This book gives full play to the murky, sinister nature of Edward's reign, and also an account of a boy learning to rule, learning to enjoy his growing power and to come out of the shadows of the great aristocrats around him.

Edward VI was the son of Henry VIII and his second wife, Jane Seymour. He ruled for only six years (1547-1553) and died at the age of sixteen. But these were years of fundamental importance in the history of the English state, and in particular of the English church. This new biography reveals for the first time that, despite his youth, Edward had a significant personal impact. Jennifer Loach draws a fresh portrait of the boy king as a highly precocious, well educated, intellectually confident, and remarkably decisive youth, with clear views on the future of the English church. Loach also offers a new understanding of Edward's health, arguing that the cause of his death was a severe infection of the lungs rather than tuberculosis, the commonly accepted diagnosis. The author views Edward not as a sickly

Read Book The Boy King Edward VI And The Protestant Reformation

child but as a healthy and vigorous boy, devoted to hunting and tournaments like any young aristocrat of the day. This book tells the story of the monarch and of his time. It supplies the dramatic context in which the short reign of Edward VI was played out—the momentous religious changes, factional fights, and popular risings. And it offers vivid details on Edward’s increasing absorption in politics, his consciousness of his role as supreme head of the English church, his determination to lay the foundation for a Protestant regime, and how his failure in this ambition brought England to the brink of civil war.

“Fascinating . . . Alison Weir does full justice to the subject.”—The Philadelphia Inquirer At his death in 1547, King Henry VIII left four heirs to the English throne: his only son, the nine-year-old Prince Edward; the Lady Mary, the adult daughter of his first wife Katherine of Aragon; the Lady Elizabeth, the teenage daughter of his second wife Anne Boleyn; and his young great-niece, the Lady Jane Grey. In this riveting account Alison Weir paints a unique portrait of these extraordinary rulers, examining their intricate relationships to each other and to history. She traces the tumult that followed Henry's death, from the brief intrigue-filled reigns of the boy king Edward VI and the fragile Lady Jane Grey, to the savagery of "Bloody Mary," and finally the accession of the politically adroit Elizabeth I. As always, Weir offers a fresh perspective on a period that has spawned many of the most enduring myths in English history, combining the best of the historian's and the biographer's art. “Like anthropology, history and biography can demonstrate unfamiliar ways of feeling and being. Alison Weir's sympathetic collective biography, *The Children of Henry VIII* does just that, reminding us that human nature has changed—and for the better. . . . Weir imparts movement and coherence while re-creating the suspense her characters endured and the suffering they inflicted.”—The New York Times Book Review

We all know the story of Henry VIII, the man who created a religious schism for the sake of divorce. A man desperate for a son he had nine wives. Henry VIII had only one son in his life, Edward VI, and this is his story. Edward ascended to the throne of England at just nine years old and became the last male of the House of Tudor, dying at the young age of fifteen under somewhat dubious circumstances. Was it poison or tuberculous? Was Edward's half-sister, Bloody Mary, the murderer? In *The Murder of Edward VI*, readers follow castle intrigue through the eyes of Richard Barton, a fictional protagonist who takes part in the events of the period. What starts as a story of King Henry's desperate efforts to obtain a healthy male heir ends in murders.
