What follows is a summary of the philosophers, the problems and the consolations offered. These are not the easy consolations of religion or psychology, telling us that everything will work out in the end or that we can be cured of our anxieties, these are the consolations of philosophy. Easy consolations are cruel lies as Nietzsche tells us.

Boethius' Consolation of Philosophy is without a doubt my favourite philosophy book written and answers many of lives questions about what we're really wanting from it (although usually an Aristotelian theme). Boethius starts from a state of pure distress and arrives finally to complete tranquillity through dialogue, debate, reason and poetry.

In seeking to return philosophy to the masses and demonstrate it's relevance to everyday life he takes six of life's dark areas and finds a philosophically-based "consolation" for each. It's an interesting approach, one de Botton compliments and flavors with his own delicate and understated humorous prose.

Boethius and The Consolation of Philosophy For some 400 years across the European Middle Ages, one philosophy book was prized above any other. Present in every educated person's library, it was titled in Latin De Consolatione Philosophiae or, as we know it in English today, The Consolation of Philosophy.

From the author of *How Proust Can Change Your Life*, a delightful, truly consoling work that proves that philosophy can be a supreme source of help for our most painful everyday problems. Perhaps only Alain de Botton could uncover practical wisdom in the writings of some of the greatest thinkers of all time. But uncover he does, and the result is an unexpected book of both solace and humor. Dividing his work into six sections -- each highlighting a different psychic ailment and the appropriate philosopher -- de Botton offers consolation for unpopularity from Socrates, for not having enough money from Epicurus, for frustration from Seneca, for inadequacy from Montaigne, and for a broken heart from Schopenhauer (the darkest of thinkers and yet, paradoxically, the most cheering). Consolation for envy -- and, of course, the final word on consolation -- comes from Nietzsche: "Not everything which makes us feel better is good for us." This wonderfully engaging book will, however, make us feel better in a good way, with equal measures of wit and wisdom.

"Witty, thoughtful, entertaining ... a stylish book, which manages to make philosophy both enjoyable and relevant, at the same time providing a very sensible digest of consolations for many of our current psychological ills" Anthony Clare, *LiteraryReview*

Queen of Sciences strives to console the fallen statesman. The main argument of the discourse is the transitoriness and unreality of all earthly greatness and the superior desirability of the things of the mind. There are evident traces of the influence of the Neo-Platonists, especially of Proclus, and little, if anything, that can be said to reflect Christian influences.

Alain de Botton combines two unlikely genres--literary biography and self-help manual--in the hilarious and unexpectedly practical *How Proust Can Change Your Life*. Who would have thought that Marcel Proust, one of the most important writers of our century, could provide us with such a rich source of insight into how best to live life? Proust understood that the essence and value of life was the sum of its everyday parts. As relevant today as they were at the turn of the century, Proust's life and work are transformed here into a no-nonsense guide to, among other things, enjoying your vacation, reviving a relationship, achieving original and unclichéd articulation, being a good host, recognizing love, and understanding why you should never sleep with someone on a first date. It took de Botton to find the inspirational in Proust's essays, letters and fiction and, perhaps even more surprising, to draw out a vivid and clarifying portrait of the master from between the lines of his work. Here is Proust as we have never seen or read him before: witty, intelligent, pragmatic. He might well change your life.

For those who don't believe in an afterlife, the wisdom of the ages offers four great consolations for mortality: that death is benign and good; that mortal life provides its own kind of immortality; that true immortality would be awful; and that we experience the kinds of losses in life that we will eventually face in death. Can any of these consolations honestly reconcile us to our inevitable demise? In this timely book, Andrew Stark tests the psychological truth of these consolations and searches our collective literary, philosophical, and cultural traditions for answers to the question of how we, in the twenty-first century, might accept our mortal condition. Ranging from Epicurus and Heidegger to bucket lists, the flaming out of rock stars, and the retiring of sports jerseys, Stark's poignant and learned exploration shows how these consolations, taken together, reveal death as a blessing no matter how much we may love life.

Boethius composed *De Consolatione Philosophiae* in the sixth century A.D. while awaiting death by torture, condemned on a charge of plotting against Gothic rule, which he protested as manifestly unjust. Though a Christian, Boethius details the true end of life as the soul's knowledge of God, and consoles himself with the tenets of Greek philosophy, not with Christian precepts. Written in a form called Meippean Satire that alternates between prose and verse, Boethius' work often

consists of a story told by Ovid or Horace to illustrate the philosophy being expounded. The Consolation of Philosophy dominated the intellectual world of the Middle Ages; it inspired writers as diverse as Thomas Aquinas, Jean de Meun, and Dante. In England it was rendered into Old English by Alfred the Great, into Middle English by Geoffrey Chaucer, and later Queen Elizabeth I made her own translation. The circumstances of composition, the heroic demeanor of the author, and the Meippian texture of part prose, part verse have been a fascination for students of philosophy, literature, and religion ever since. About the Series: For over 100 years Oxford World's Classics has made available the broadest spectrum of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, voluminous notes to clarify the text, up-to-date bibliographies for further study, and much more.

Throughout Antiquity and the Middle Ages, literature was read with the ear as much as with the eye: silent reading was the exception; audible reading, the norm. This highly original book shows that Boethius's Consolation of Philosophy - one of the most widely-read texts in Western history - aims to affect the listener through the designs of its rhythmic sound. Stephen Blackwood argues that the Consolation's metres are arranged in patterns that have a therapeutic and liturgical purpose: as a bodily mediation of the text's consolation, these rhythmic patterns enable the listener to discern the eternal in the motion of time. The
