The New Radio Receiver Building Handbook

The book title suggests this is a book with lots of radio projects to build... Nope, just a couple of projects at the very end, unfortunately. On the other hand, the book has good information on basic radio theory, which would be great for the beginner. A better title would have been "The New Radio Receiver Theory Handbook".

The first Hammarlund plant was a loft operation engaged in radio component manufacturing on Fulton Street in lower Manhattan, New York City.Their variable capacitor designs quickly became industry standards, and the component's schematic symbol was adopted as the company's logo. In the mid-1920s, Hammarlund formed a partnership called Hammarlund-Roberts Co. specifically to offer kits for AM ...

The New Radio Receiver Building Handbook [EBOOK]

The specialized parts to build a television were available that August. A New Jersey radio supply company, Daven, sold a complete television receiver kit for \$100; the scanning disk was \$10 and the neon bulb was \$11.50. Raytheon advertised their "Kino-Lamp" and "Foto-Cell" for engineers and amateurs building televisions.
